Scient, an expert-driven initiative led by the editors association and the advisory board which includes academicians, researchers, and industry leaders across various fields of research.

**Scient Journals**
- Open Access Journals
- Editorial team
- High visibility
- Publication immediately after acceptance
- Quality and quick editorial, review processing

**Key Features**
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits

**Scient Specialities**
- Well-structured workshops, events and symposia
- Renowned speakers and scientists across the globe
- Poster presentations and world class exhibits

**About Us**

http://neurologyworldcongress.com/
Dubai is the most populous city in the United Arab Emirates (UAE). The emirate of Dubai is located on the southeast coast of the Persian Gulf and is one of the seven emirates that make up the country. Abu Dhabi and Dubai are the only two emirates to have veto power over critical matters of national importance in the country’s legislature. It has the largest population in the UAE (2,106,177) and the second-largest land territory by area (4,114 km²) after Abu Dhabi. Dubai is also known as the City of Gold, because a major part of the economy is based on gold trades, with Dubai’s total gold trading volumes in H1 2011 reaching 580 tones. (Average price US$1,455) Dubai has emerged as a global city and business hub of the Middle East.

The emirate’s Western-style model of business drives its economy with the main revenues now coming from tourism, aviation, real estate, and financial services.

The city has become symbolic for its skyscrapers and high-rise buildings, in particular the world’s tallest building, the Burj Khalifa.

Home to just over 2 million people from more than 200 nationalities, Dubai is one of the most cosmopolitan cities in the world. Living in Dubai has a lot to offer. It is safe, politically stable, centrally located, and has a good education system and healthcare facilities. In 2014, Dubai’s hotel rooms were rated as the second most expensive in the world.
